. The tank with built in bra accommodates two pairs of cups and a center gore. A horizontal shelf is attached in front of the shelf bra. . The shelf is useful for storing drinks, for example. A set of two cup-shaped holders for drinks is attached on the shelf. This bra has a front closure with five hooks and eyes and a back closure with two hooks and eyes. The back closure has a rigid back that keeps the bra from moving up or down. The built-in shelf bra allows the cup-shaped holders to be placed at any desired height. This bra accommodates a total of five cups. The cups are easy to take off and on. There are slits on the side of the cups. The cups can be positioned one above the other. They have a horizontal hole on each side, which allows you to fit a cup. This bra is a complete set. When you remove the shelf bra from the tank, you get two cup holders, five cups, and a shelf. These cups are easy to put on and take off, and they can be easily used even when your bra is already on. These cups are not deep enough to accommodate a complete set of cups. This bra does not fit under a nightgown. This bra accommodates three cups. The cups are not deep enough to accommodate a complete set of cups. They are not suitable for nursing because they are not deep enough to accommodate a complete set of cups. The horizontal shelf can be moved to different positions. It can be moved from the front to the back, or from the back to the front. This bra does not fit under a nightgown. When you remove the bra from the tank, you get two cups, two cup holders, and a shelf. These cups are not deep enough to accommodate a complete set of cups. These cups are not suitable for nursing because they are not deep enough to accommodate a complete set of cups. The horizontal shelf can be moved to different positions. It can be moved from the front to the back, or from the back to the front. This bra does not fit under a nightgown. This bra accommodates four cups. This bra is not deep enough to accommodate a complete set of cups. The cups are not suitable for nursing because they are not deep enough to accommodate a complete set of cups. The horizontal shelf can be moved to different positions. It can be moved from the front to the back, or from the back to the front. This bra does not fit under a \$2157476af
